Continuation of first sheet

Continuation No. I:

Nucleotide and/or amino acid sequence(s)

(Continuation of item 1.b of the first sheet)

1. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, the International search was carried out on the basis of:

- a. type of material: a sequence listing
- b. format of material: In written format
- c. time of filing/furnishing: contained in the international application as filed

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:
